

Corporate Planning Analyst

THE COMPANY

Headquartered in Calgary, Alberta and with operations near Fort St. John, British Columbia, Pacific Canbriam Energy Limited ("PCE") is committed to our 5Cs business philosophy of creating benefits for our Community, Country, Climate, Customer, and Company.

Pacific Canbriam believes that the quality of its resource is a strategic asset that differentiates the company. Early efforts to identify a scalable, low cost supply source led to a focus in the Altares and Kobes Montney regions in northeast B.C. The Montney is a world class resource and Altares is among the highest quality areas. The region possesses a unique combination of thickness and over-pressure, which contributes to highly efficient stacked resource development and strong well deliverability. Pacific Canbriam's Montney resource also possesses a high liquids content and overall rock quality that translates into a highly competitive supply cost.

We believe that teamwork is the foundation of our success. We have established a culture where problem solving skills and critical thinking are highly valued. Individual technical disciplines collaborate to achieve common objectives and continuously improve results. PCE's strategy and its culture are centred on this commitment.

PCE is committed to protecting people and the environment through responsible natural resource development. We are proud to engage in industry-leading sustainability practices and promote continuous improvement throughout all areas of environment, social and governance (ESG) topics.

The next iteration of our integrated approach relates to the planned export of our natural gas to markets in growing economies overseas. To achieve this aim, PCE will supply B.C.'s proposed Woodfibre LNG project, which will liquefy the natural gas and load it into vessels. The natural gas will be shipped to help supply a growing demand for cleaner sources of energy in Asia.

THE POSITION

We are seeking an Analyst to become a key member of the Pacific Canbriam Corporate Planning team. Supporting planning and analytical activities across the company, the successful individual will bring their professionalism, energy, and enthusiasm to deliver excellent results in a fast paced, fluid and demanding work environment. This role is based in the corporate office in Calgary.

Key Responsibilities

- Support budgeting and strategic planning exercises by integrating and validating operating data in the corporate model
- Provide analytical support and prepare presentation materials for Finance, Business Development, Marketing, and Operations projects

- Work with the accounting team as a liaison between both groups to ensure accuracy of information and models being used for cash and accrual-based forecasting
- Identify areas for improvement and proactively enhance reporting accuracy, clarity, and process cycle times
- Support the development and improvement of internal communication across the functions
- Support planning activities and project approvals by helping to create, develop, and maintain detailed economic models
- Help prepare monthly reports and fulfill other ad hoc reporting requirements

THE INDIVIDUAL

About You

- Enjoy working independently and as part of an interdisciplinary team and comfortable working with individuals in all departments and at every level in the organization
- Excited by working on a variety of highly important projects where you can showcase your diligence and trustworthiness
- Adept at delivering results on time, in a high workload environment, through efficiency and prioritization
- Have high energy, be a self-starter and have a results-oriented work style combined with excellent communication and interpersonal skills
- Have an inquisitive mind and enjoy digging into and understanding data through variance analysis
- Able to maintain a calm composure, be flexible and adapt to changing priorities
- Possess a keen attention to detail and not mind performing repeated and routine tasks
- Have a positive attitude and desire to contribute to a high performing team

Qualifications

- Undergraduate degree in a related field such as business, accounting, finance or engineering
- Three to five years of oil & gas industry experience, preferably in the Upstream sector
- Must be legally eligible to work in Canada
- Excellent analytical skills
- Strong Excel skills
- Proficiency in PowerPoint would be beneficial
- Experience with Qbyte, Enersight and AFE Navigator would be considered an asset

APPLICATION PROCESS

Please submit your resume and a cover letter to HR@pacific-canbriam.ca by 5:00 pm on Tuesday, August 8, 2023. Be sure to address your cover letter to **Nicole Crichlow, Senior Corporate Planning Analyst** indicating your interest in the position and how your experience meets or exceeds the qualifications. Pacific Canbriam Energy thanks all candidates however only those selected for an interview will be contacted.

PCE is proud to be an equal opportunity employer. We firmly believe that having a diverse team not only celebrates our differences, but also drives innovation while optimizing performance. We commit to fostering a diverse, equitable and inclusive environment, where talented people collaborate to continuously improve - collectively building an extraordinary vision for the future.

PCE encourages qualified applicants of any race, religious belief, colour, national or ethnic origin, disability, age, marital or family status, sex or sexual orientation, gender identity or expression to apply. Hiring decisions are based on merit, qualifications and unique business needs. We do not tolerate any discrimination, harassment or workplace violence and will investigate and remedy any claims in a timely manner and take appropriate corrective action.

PCE is committed to providing reasonable accommodations for qualified individuals with disabilities. If you require assistance with this application please reach out to HR@pacific-canbriam.ca
